PROFESSIONAL SUMMARY

Data Scientist with 3+ years of experience designing and deploying machine learning models, statistical analysis workflows, and data visualization tools.

TECHNICAL SKILLS

- Programming & Query: Python, SQL, R, Bash
- Machine Learning & Deep Learning: Scikit-Learn, PyTorch, TensorFlow, Natural Language Processing (NLP), Computer Vision
- Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Seaborn, Tableau, Microsoft Excel
- Databases: PostgreSQL, MongoDB, MySQL
- DevOps & Cloud: Docker, Git, GitHub, Amazon Web Services (AWS)
- Core Competencies: Problem Solving, Critical Thinking, Teamwork, Communication

WORK EXPERIENCE

Data Scientist | Apex Analytics Solutions (2022 - Present)

- Developed supervised and unsupervised machine learning pipelines using Python and Scikit-Learn to predict customer churn, achieving 85% accuracy.
- Implemented natural language processing (NLP) algorithms for automated document classification and sentiment analysis on customer feedback.
- Automated ETL and data analysis workflows with Pandas, NumPy, and SQL, reducing data preparation cycle time by 35%.
- Containerized model training workflows with Docker and deployed inference endpoints on AWS.
- Created interactive dashboards in Tableau and Excel to communicate predictive insights to non-technical stakeholders.

Junior Data Analyst | Quantum Insights Corp (2020 - 2022)

- Extracted and queried large-scale relational datasets using PostgreSQL and MySQL.
- Performed exploratory data analysis (EDA) and built regression models for pricing optimization.
- Collaborated in cross-functional Agile sprint cycles with software engineers and product managers.

EDUCATION

Bachelor of Science in Computer Science & Data Analytics

University of Technology (2016 - 2020)
